

Clinical Integration Data

Date: _____

St. Luke's Health Partners is an Idaho-based financially and clinically integrated network of providers who share a vision to help its members achieve their best possible health at the lowest total cost of care. Participating with St. Luke's Health Partners includes many benefits and resources designed to assist in caring for our shared population. Such resources may include, care management, behavioral health integration, practice transformation, quality performance improvement, population health management tools, risk adjustment education, coding education, and much more. Please complete the below form and return with other required participation forms. If you have additional question or would like additional information regarding the network please contact our office at 208-381-1564.
